EDUCATION

Patan Multiple Campus   Undergraduate
BSc.CSIT   *Apr. 2022 – Ongoing*

Dang Valley College   +2 Pass
Science   *2019 – 2021*

EXPERIENCE

Frontend Intern   Jan 2024 – Present
Hyberlab IT Solutions   *Anamnagar*
- Developed a web application using React, Redux, Tailwindcss, Nodemailer and Docker to make a website for the client based on electronics products and their services
- Developed a component for the Hyberlab official website collaborating with team using Tailwindcss, Redux, Reactjs and more libraries
- Explored ways to visualize GitHub collaboration in a classroom setting

PROJECTS

GPT CLONE | *Node.js, Express.js, React, MongoDB, OEPNAI KEY*
- Developed a responsive web application using with Node.js serving a REST API with React as the frontend and OPENAI API for the chat system
- Deployed in vercel
- Github Code: https://github.com/Subash-Chand-Thakuri/GPT-Clone
- Deployded Link: https://gpt-clone-brown.vercel.app

Music Course App | *Next.js, Typescript, Zod, MongoDB, Tailwindcss, Shadcn, aceternity-ui*
- Developed a Music Course App focusing mostly on frontend part
- Used zod for the typescript data modeling
- Github Code: https://github.com/Subash-Chand-Thakuri/music-course-app
- Deployed Link: https://music-course-app-eppx.vercel.app

Personal Website | *Next.js, Typescript, GrapQl, sanity-io, Tailwindcss*
- Developed a personal website focusing mostly on working of graphql with sanity.io
- Also focused on frontend part how to make website visually appealing
- Github Code: https://github.com/Subash-Chand-Thakuri/nextJs-projects
- Deployed Link: https://sanity-nextjs-gold.vercel.app

Admin Dashboard | *Next.js, Typescript, Tailwindcss, React-Chart, Authentication*
- Developed a admin dashboad focusing mostly on how authentication works and how admin dashboard should look like.
- Focused on how authentication and authorization works on Nextjs
- Github Code: https://github.com/Subash-Chand-Thakuri/nextJs-projects

MERN Chat App | *Node.js, Typescript, MONGODB, Express.js, React.js Tailwindcss, Chakra-ui*
- Developed a mern chat app focusing mostly on how socet.io works on providing realtime communication between one to one user or one to many group users
- Able to learn on how Typescript is used with Node.js to implement Javascript, also how chakra-ui is implemented
- Gain the experience on how complex project is done using proper plainning and designing, logical thinking and so much
- Github Code: https://github.com/Subash-Chand-Thakuri/chatApp-mern
- Deployed Link: https://chat-app-mern-lmye.vercel.app/

TECHNICAL SKILLS

Languages: Typescript, Python, C/C++, SQL (Postgres, MySQL), JavaScript, HTML/CSS
Frameworks: React, Redux, Node.js, Next.js, Shadcn, Django, Material-UI, Taiwindcss, Bootstrap
Developer Tools: Git, Docker,VS Code, Visual Studio, PyCharm, IntelliJ,
